

Talk to your doctor about YUPELRI® (revefenacin) inhalation solution

Important Safety Information

What is YUPELRI®?

- YUPELRI is a prescription medicine used to treat chronic obstructive pulmonary disease (COPD), a long-term (chronic) lung disease that includes chronic bronchitis, emphysema, or both.
- It is an anticholinergic medicine which helps the muscles around the airway in your lungs stay relaxed to prevent symptoms such as wheezing, cough, chest tightness, and shortness of breath.
- It is used long-term as 1 vial of YUPELRI, 1 time each day inhaled through your nebulizer to improve symptoms of COPD for better breathing.

Who should not use YUPELRI?

- **Do not use YUPELRI if you** have sudden breathing problems. Always have a rescue inhaler with you.
- **Do not use YUPELRI if you** have had an allergic reaction to revefenacin, or any of the other ingredients in YUPELRI (sodium chloride, citric acid, sodium citrate).
- Do not use in children. It is not known if YUPELRI is safe and effective in children.

Use the below questions to help guide your discussion with your doctor.

Once you have answered the questions below, print your results or email them to yourself and bring them to your next doctor's visit.

1. How often do you experience any of the following symptoms?

	Never	Occasionally	Frequently	Constantly
Coughing	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Wheezing	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Shortness of breath	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Chest tightness	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Breathlessness	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

2. How have your symptoms changed over the past few months?

- | | |
|--|--|
| <input type="checkbox"/> They have gotten better | <input type="checkbox"/> They have stayed the same |
| <input type="checkbox"/> They have gotten worse | <input type="checkbox"/> I don't know |

Please see full Important Safety Information on pages 2-4.

3. How much do you agree with the following statements?

	Strongly disagree	Disagree	Neither agree or disagree	Agree	Strongly agree
I cough with mucus	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
I sleep soundly	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
I have a lot of energy throughout the day	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
I am limited in doing activities throughout the day	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
I avoid social situations because of my COPD symptoms	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Important Safety Information

What is YUPELRI®?

- YUPELRI is a prescription medicine used to treat chronic obstructive pulmonary disease (COPD), a long-term (chronic) lung disease that includes chronic bronchitis, emphysema, or both.
- It is an anticholinergic medicine which helps the muscles around the airway in your lungs stay relaxed to prevent symptoms such as wheezing, cough, chest tightness, and shortness of breath.
- It is used long-term as 1 vial of YUPELRI, 1 time each day inhaled through your nebulizer to improve symptoms of COPD for better breathing.

Who should not use YUPELRI?

- **Do not use YUPELRI if you** have sudden breathing problems. Always have a rescue inhaler with you.
- **Do not use YUPELRI if you** have had an allergic reaction to revefenacin, or any of the other ingredients in YUPELRI (sodium chloride, citric acid, sodium citrate).
- Do not use in children. It is not known if YUPELRI is safe and effective in children.

Before using YUPELRI, tell your healthcare provider about all your medical conditions, including if you:

- have eye problems such as glaucoma. YUPELRI may make your glaucoma worse.
- have prostate or bladder problems, or problems passing urine. YUPELRI may make these problems worse.
- have liver problems.
- are allergic to any of the ingredients in YUPELRI, or any other medicines.
- are pregnant or planning to become pregnant. It is not known if YUPELRI may harm your unborn baby.
- are breastfeeding. It is not known if the medicine in YUPELRI passes into your breast milk and if it can harm your baby.

Tell your healthcare provider about all the medicines you take including prescription and over-the-counter medicines, vitamins, and herbal supplements. YUPELRI and certain other medicines may interact with each other. This may cause serious side effects.

Important Safety Information (cont'd)

Especially tell your healthcare provider if you take:

- Other anticholinergics (including tiotropium, ipratropium, acclidinium, umeclidinium, glycopyrrolate)
- Atropine

Know the medicines you take. Keep a list of them to show your healthcare provider and pharmacist each time you get a new medicine.

What are the possible side effects with YUPELRI?

YUPELRI can cause serious side effects, including:

- **Sudden breathing problems immediately after inhaling your medicine.** If you have sudden breathing problems immediately after inhaling your medicine, stop using YUPELRI and call your healthcare provider right away.
- **New or worsened eye problems including acute narrow-angle glaucoma.** Acute narrow-angle glaucoma can cause permanent loss of vision if not treated. Symptoms may include:
 - Red eyes
 - Blurred vision
 - Seeing halos or bright colors around lights
 - Eye pain or discomfort
 - Nausea or vomiting
- **Urinary retention.** People who take YUPELRI may develop new or worse urinary retention. Symptoms of urinary retention may include:
 - difficulty urinating
 - urinating frequently
 - urination in a weak stream or drips
 - painful urination

If you have any of these symptoms, call your healthcare provider right away before taking another dose.

- **Serious allergic reactions.** Call your healthcare provider or get emergency medical care if you get any of the following symptoms of a serious allergic reaction:
 - rash
 - hives
 - severe itching
 - swelling of your face, mouth, and tongue
 - difficulty breathing or swallowing

If you have any of these symptoms, stop taking YUPELRI, and call your healthcare provider right away before taking another dose.

Common side effects of YUPELRI include:

- Cough
- Runny nose
- Upper respiratory tract infection
- Headache
- Back pain

Tell your healthcare provider if you get any side effects that bother you or that do not go away. These are not all the possible side effects with YUPELRI. Ask your healthcare provider or pharmacist for more information. Call your doctor for medical advice about side effects.

Important Safety Information (cont'd)

How should I use YUPELRI?

Read the step by step instructions for using YUPELRI at the end of this Patient Information Leaflet

- YUPELRI is only for use with a nebulizer.
- Do not use YUPELRI more often than prescribed.
- Do not mix YUPELRI with other medicines in your nebulizer.
- Do not use other medicines that contain an anticholinergic for any reason.
- Do not stop using YUPELRI, even if you are feeling better, unless your healthcare provider tells you to because your symptoms might get worse.
- Call your healthcare provider or get emergency medical care right away if
 - your breathing problems get worse.
 - you need to use your rescue inhaler medicine more often than usual.
 - your rescue inhaler medicine does not relieve your symptoms.

This summary does not include all the information about YUPELRI and is not meant to take the place of a discussion with your healthcare provider about your treatment.
