The YUPELRI Hub by *Gifthealth*

A service provided by Gifthealth that supports patient access to **YUPELRI** via an extensive network of partner pharmacies.

- Automated systems streamline the prescription process, to help avoid billing errors & delays
- All payers accepted
- Fast delivery at no cost for patients

Who is Gifthealth?

YUPELRI has partnered with Gifthealth, a prescription fulfillment service provider built on a technology platform designed to provide access to prescription medications for patients across the country through a network of Durable Medical Equipment (DME), specialty, and retail pharmacy partners.

Patient Support

- Single Point of Contact: A dedicated fulfillment team for your patients
- Gifthealth works with your patients to help them find the lowest cost for YUPELRI with delivery at no charge
- Facilitates Prior Authorization process when needed
- Part B Billing: The YUPELRI Hub handles complex Part B billing processes
- Monthly calls and/or text messages to patients for refill reminders

Indication

YUPELRI® inhalation solution is indicated for the maintenance treatment of patients with chronic obstructive pulmonary disease (COPD).

Important Safety Information

YUPELRI is contraindicated in patients with hypersensitivity to revefenacin or any component of this product.

YUPELRI should not be initiated in patients during acutely deteriorating or potentially life-threatening episodes of COPD, or for the relief of acute symptoms, i.e., as rescue therapy for the treatment of acute episodes of bronchospasm. Acute symptoms should be treated with an inhaled short-acting beta₂-agonist. As with other inhaled medicines, YUPELRI can produce paradoxical bronchospasm that may be life-threatening. If paradoxical bronchospasm occurs following dosing with YUPELRI, it should be treated immediately with an inhaled, short-acting bronchodilator. YUPELRI should be discontinued immediately and alternative therapy should be instituted.

YUPELRI should be used with caution in patients with narrow-angle glaucoma. Patients should be instructed to immediately consult their healthcare provider if they develop any signs and symptoms of acute narrow-angle glaucoma, including eye pain or discomfort, blurred vision, visual halos or colored images in association with red eyes from conjunctival congestion and corneal edema.

See additional Important Safety Information below

Getting Started with The YUPELRI Hub by *Gifthealth*

Step 1: Sending in the Prescription

E-scribe or Fax to The YUPELRI Hub

Gifthealth Rx Partners
266 N 4th Street, Suite 200
Columbus, OH 43215
NPI: 1932780475

eRx: NCPDP: 3688833
Phone: 833.614.4438
Fax: 833.427.1165

Helpful Tips:

- Be sure to include the dosage and applicable ICD-10 code for COPD
- All Part B prescription billing must also obtain a patient's chart notes prior to dispensing

Other items to include:

- Patient demographics
- Patient's current phone number
- Any tried and failed treatments/medications

The YUPELRI Hub by *Gifthealth* is connected to EHRs allowing for:

- **A simplified electronic prior authorization process**
- **Accurate processing of Medicare Part B billing**

Step 2: The YUPELRI Hub Will Contact the Patient

- Patients will receive an automatic SMS text once the prescription is received as well as a phone call to verify their information
- The YUPELRI Hub by *Gifthealth* will initiate benefits verification on behalf of the patient and inform them about their coverage and/or copay
 - If there is a copay, The YUPELRI Hub by *Gifthealth* will take payment over the phone or discuss alternative payment methods if necessary
 - YUPELRI Savings Card will be automatically applied for eligible commercially insured patients

Step 3: The YUPELRI Prescription Is Shipped & Delivered at No Charge to the Patient

- The YUPELRI Hub by *Gifthealth* promotes adherence by reminding the patient via phone call & text when it is time to refill their medication

The YUPELRI Hub by *Gifthealth*

FAQs

- **Does the YUPELRI Hub charge fees to the patient for their services?**

The YUPELRI Hub provides services to patients at no cost.

- **Does the Gifthealth process all insurances?**

Yes, the YUPELRI Hub accepts all insurances for coverage determination.

- **When can patient expect delivery of their YUPELRI prescription?**

Once the patient's copay has been collected, the YUPELRI prescription will be available within 1-4 days by delivery or pickup at the pharmacy.

Important Safety Information (Continued)

Worsening of urinary retention may occur. Use with caution in patients with prostatic hyperplasia or bladder-neck obstruction and instruct patients to contact a healthcare provider immediately if symptoms occur.

Immediate hypersensitivity reactions may occur after administration of YUPELRI. If a reaction occurs, YUPELRI should be stopped at once and alternative treatments considered.

The most common adverse reactions occurring in clinical trials at an incidence greater than or equal to 2% in the YUPELRI group, and higher than placebo, included cough, nasopharyngitis, upper respiratory infection, headache and back pain.

Coadministration of anticholinergic medicines or OATP1B1 and OATP1B3 inhibitors with YUPELRI is not recommended.

YUPELRI is not recommended in patients with any degree of hepatic impairment.
